

Neuberg Diagnostics opens Coimbatore lab

16 May 2022 | News

The diagnostics company also virtually opened labs at Ooty, Erode and lab inside the women centre by Motherhood Hospitals

Neuberg Diagnostics has announced the opening of a processing lab in Coimbatore. The new lab in Coimbatore is equipped to conduct and process a wide variety of tests and is capable to process about 1000 samples in a day and delivering results within the given turnaround time which differs from test to test while maintaining the best-in-class quality. The diagnostics company also virtually opened labs at Ooty, Erode and a lab inside the women centre by Motherhood Hospitals and will soon open labs at Pollachi, Valparai etc and other 10 locations with open collection centres at 100 locations.

The lab will also focus on specialized testing needs for hospitals, nursing homes and smaller laboratories across Coimbatore, Tirupur, Pollachi, Udumalpet, Valparai, Avinashi and Nilgiris District. Additionally, Neuberg as a group is equipped to conduct futuristic tests such as genomics, proteomics, metabolomics, molecular biology and digital pathology.
