

Healthians unveils live reporting of diagnostic tests

13 June 2022 | News

Reports will be available within four hours after sample collection

Healthians has announced diagnostic tests live reporting that starts just four hours after sample collection. With this launch, Healthians has become the first company in the diagnostic sector to offer such a feature to its users.

The service has been launched in 10 cities in India, namely Delhi, Gurgaon, Noida, Mumbai, Bengaluru, Ahmedabad, Hyderabad, Ghaziabad, Faridabad, and Greater Noida. Under the service, Healthians users can see live updates on the reports for individual tests that they may have booked from the company.
