Hyd-based Yashoda Hospitals registers on metaverse

17 June 2022 | News

Yashoda Hospitals intends to offer healthcare services to the people on the metaverse

Yashoda Hospitals Group from Hyderabad has acquired a parcel of land on Decentraland, the metaverse platform and has set up an experience zone to mark the 30+ years of healthcare service it has offered to the people. This makes Yashoda Hospitals the first hospital in the country to set its footprint on a metaverse platform.

Dr Abhinav Gorukanti, Director, Yashoda Hospitals said, "We believe the future will be driven by core technologies like the blockchain and Web 3.0, moving from a centralised to a decentralised ecosystem. Setting up our presence on decentraland is the first step towards our efforts and acceptance of decentralised tech, we will continue to upgrade and invest in making our digital infrastructure future-ready."

Yashoda Hospitals intends to offer healthcare services to the people on the metaverse, and create employment for metaversians as well.
