Lays the foundation Stone for Bagchi Parthasarathy Multispeciality Hospital

The Prime Minister (PM) Narendra Modi inaugurated the Centre for Brain Research and laid the foundation Stone for Bagchi Parthasarathy Multispeciality Hospital at the Indian Institute of Science (IISc), Bengaluru.

The Prime Minister tweeted, “Glad to inaugurate the Centre for Brain Research at IISc. The joy is greater because I also had the honour of laying the foundation stone for this project. This Centre will be at the forefront of research on how to manage brain related disorders.”

“At a time when every nation must give top most importance to healthcare, efforts like the Bagchi Parthasarathy Multispeciality Hospital assume great importance. In the times to come, it will strengthen healthcare capacities and encourage pioneering research in the sector.”

The Centre for Brain Research is developed as a one of its kind research facility and focuses on conducting vital research to provide evidence based public health interventions to manage age-related brain disorders.

832 bedded Bagchi Parthasarathy Multispeciality Hospital will be developed in the campus of IISc Bengaluru and will help integrate science, engineering and medicine at the prestigious institute. It will provide major push to clinical research in the country and will work towards finding innovative solutions that will help in improvement of healthcare services in the country.
