

IIT-Jodhpur unveils novel CODE device for indoor air quality

03 August 2022 | News

The first product from IIT Jodhpur's Technology Innovation & Startup Centre

During its 15th Foundation Day on 2nd August 2022, Indian Institute of Technology (IIT) Jodhpur hosted the launch of the novel CODE device for indoor air quality, the first product from IIT Jodhpur's Technology Innovation & Startup Centre (TISC). The product is based on a cold plasma discharge for the generation of plasma detergent ions in the environment.

Apart from this, the event also included signing of a Memorandum of Understanding (MoU) between IIT Jodhpur and Kritikal Solutions to set up an R&D Centre at IIT Jodhpur Technology Park to focus on diverse fields including Vision systems, image processing, Artificial Intelligence, Computer visions, Software systems and embedded systems.
