

MeddeyGo expands medical supplies portfolio with advanced diagnostic equipment

03 August 2023 | News

The company recently celebrated the milestone of serving 25,000 clinics/hospitals/customers

New Delhi-based startup MeddeyGo.com, a leading e-commerce platform for medical supplies, has announced an expansion of its portfolio with the addition of an advanced range of diagnostic equipment - para monitors, ECG machines, fetal monitor, automated defibrillator & computerised auto refractometer - to name a few. It has also enhanced hospital furniture category with expansion of operating room, consulting room, patient room & patient transfer solutions.

The company recently celebrated the milestone of serving 25,000 clinics/hospitals/customers in just over a year since its launch in January 2022.

"We have been using MeddeyGo.com for our medical supplies since its launch, and are extremely satisfied with the service," said Dr Yashwant, a healthcare professional at Yashwant Critical Care Hospital, Beed, Maharashtra. "Their website is easy to use, and we always find what we need. Product delivery is fast, and their customer service is exceptional. We highly recommend MeddeyGo.com to other healthcare professionals."

Gurvinder Singh, who runs North India's most advanced rehabilitation and occupational therapy centre at Gurjot Rehabilitation Centre, Jalandhar, added, "We have used MeddeyGo.com for several months now, and found it a convenient option to buy all types of equipment at one place, we are very happy with the service."
