

Hemato Oncology Clinic merges with M | O | C Cancer Care & Research Center

08 July 2024 | News

Merger will enable singular focus on delivering best-in-class Cancer Care

Hemato Oncology Clinic- Vedanta (HOC) and M | O | C Cancer Care & Research Center (M | O | C) have announced their merger expanding access to world-class cancer care and research to patients across Western India.

HOC-Vedanta - M | O | C now has one of the largest geographic footprints in cancer treatment and research, providing cancer patients with timely access to leading-edge cancer care at sustainable rates near their homes.

With the merger, both HOC-Vedanta & M | O | C will combine their complementary strengths and resources to provide the best and most compassionate care possible. M | O | C had raised \$10 million from Tata Capital Healthcare Fund in January 2023.

HOC-Vedanta - M | O | C have 40 Medical Oncologists and Hemato-Oncologists on board which is the largest pool of cancer physicians under a single cancer care organisation in India so far and will serve 22,000+ cancer patients every year across a network of 22 community cancer care locations in Maharashtra, MP and Gujarat. The combined entity shall soon expand their operations in other parts of India with aim to provide access to best-quality cancer care to patients across India.
