Heartnet appoints Indranil Das as Senior Advisor - Technology

13 December 2024 | News

Das brings a wealth of knowledge in cloud, mainframe, and data centre operations

Heartnet India, an IoT-based solution dedicated to enhancing cardiac healthcare delivery, has announced the appointment of Indranil Das as Senior Advisor - Technology. In this role, Das will play a pivotal role in guiding the company's technological advancements and strategic initiatives.

With over 34 years of experience in the IT industry, Das brings a wealth of knowledge in cloud, mainframe, and data centre operations. Previously, he held leadership positions at DXC, IBM, and Maersk, where he led large teams across the EU, APAC, the Americas, and Canada, delivering innovative solutions for Fortune 500 clients.

Heartnet aims to strategically reach 10,000 care points within the next 24 months. By placing innovation and patient data safety at the forefront, Heartnet is creating technology that truly meets the needs of healthcare providers and patients.

With the appointment of Indranil Das as Senior Advisor- Technology, Heartnet is poised to enhance the way cardiac care is delivered across India by bridging the accessibility gap. The collaboration will ensure that Heartnet's mission to bridge the accessibility gap in rural India is accomplished efficiently while empowering healthcare providers and enhancing patient experiences.
