

## Pharma Live Expo & Summit 2025 kicks off in Mumbai to discuss innovation, compliance, and global collaboration

17 April 2025 | News

**Organised by ICEXPO Consults and supported by industry bodies**

Pharma Live Expo & Summit 2025 officially opened its doors on April 17 at the Bombay Exhibition Centre, Mumbai, welcoming thousands of pharmaceutical, medtech, and healthcare professionals from across the globe.

As one of the most significant events in the South Asian pharmaceutical calendar, this three-day expo and summit is poised to set a new benchmark for innovation, collaboration, and strategic foresight within the pharma ecosystem.

The 3rd edition of Pharma Live Expo & Summit comes at a time when the global pharmaceutical and medtech industries are undergoing transformative shifts. With the theme "Next-Gen Pharma – Pioneering Global Excellence Together" the event offers an immersive experience designed to foster critical dialogue around key trends such as precision medicine, AI-driven drug discovery, sustainable packaging, digital health innovations, and evolving regulatory frameworks.

Organised by ICEXPO Consults and supported by industry bodies such as the Federation of Pharmaceutical and Allied Products Merchant Exporters (FPME,) the expo features over 225 exhibitors and is expected to attract more than 20,000 visitors, including international delegates from over 20 countries.

Speaking at the inauguration, Shereef Rehuman, Managing Director and CEO of ICEXPO Consults, emphasised the

importance of industry-wide collaboration to achieve global healthcare goals saying, "Pharma Live Expo & Summit 2025 reflects the dynamic momentum of India's pharmaceutical and MedTech leadership on the global stage. Our aim is to provide a platform where innovation meets opportunity and where science, strategy, and solutions converge to build the next generation of healthcare."

A key highlight of Pharma Live Expo & Summit 2025 is its official Knowledge Partnership with NAB-CCM (National Accreditation Board for Cold Chain Management), ensuring deep, data-driven discussions around compliance, logistics, and sustainable pharma practices throughout the summit.
