

Fortis unveils specialised blood disorder clinic in Navi Mumbai

07 June 2025 | News

The clinic will offer holistic treatment programme for blood disorders and related life-threatening conditions

Fortis Hiranandani Hospital, Vashi, has launched the Blood Disorder Clinic in Navi Mumbai, a pioneering centre dedicated to the diagnosis, treatment, and management of blood-related conditions.

The unit, helmed by Dr Subhaprakash Sanyal, Director–Fortis Institute of Blood Disorders, Fortis Hospitals Mumbai, was inaugurated by Dr S Narayani, Business Head-Maharashtra, Fortis Hospitals and Nitin Kamaria, Facility Director, Fortis Hiranandani Hospital Vashi.

The Blood Disorder Clinic, a subset of Fortis Institute of Blood Disorders, will offer specialised care for life-threatening blood cancers such as Multiple Myeloma, Leukemia, and other serious hematologic conditions, as well as non-cancerous blood disorders like Anemia and Hematomas.

Additionally, the clinic will provide cutting-edge CAR T-cell Therapy, a ground-breaking treatment offering new hope for patients with certain types of Blood Cancers. It aims to provide comprehensive, patient-centered services for individuals in need of expert care. Dr Subhaprakash Sanyal, Director-Fortis Institute of Blood Disorders, will be work closely with Dr Hamza Dalal, Consultant-Haematology and a team of specialists, to lead the Blood Disorder Clinic, providing dedicated care and support for patients and their caregivers.

A first-of-its-kind programme in Navi Mumbai is designed to be a safe space for patients to heal,” said Dr S. Narayani, Business Head-Maharashtra, Fortis Hospitals.
