

ASG Eye Hospital expands network with 11 strategic partnerships across Tier-2 and 3 cities

17 September 2025 | News

To enhance early diagnosis, provide timely treatment, and ensure seamless post-procedural experiences

ASG Eye Hospital, one of India's foremost eye-care super speciality hospital chains with over 165 hospitals across 83 cities nationwide, has announced further expansion of its eye care network through partnerships with 11 esteemed hospitals across six Indian states particularly in Tier-2 and Tier-3 cities.

These new collaborations with accomplished clinical practices are in line with ASG's long term vision to grow its eye care footprint and further enhance accessibility to standardised best in class eye care in regions that need it the most.

Dr Arun Singhvi, Managing Director & CEO of ASG Eye Hospital said, "Every collaboration we consider is driven by the goal of taking quality eye care to communities that need it the most, while maintaining standardized and advanced technology in the field. The partners we pick are highly regarded in the field of ophthalmology and together, we aim to bring best in class services closer to home, backed by a patient-centered approach and a shared vision of care."

By integrating advanced technology with experienced clinicians, ASG Eye Hospital will enhance early diagnosis, provide timely treatment, and ensure seamless post-procedural experiences. These partnerships strengthen regional leadership and improve the overall quality of eye care by fostering knowledge-sharing, training, and standard clinical and technical advancement protocols.

The new partner locations include:

1. Dr. Gadgil Eye Hospital, Thane, Maharashtra – Dr. Uday Gadgil, 2 locations in Thane
